Exterpark Revolution in a music video

48 YEARS TRADITION

our 9th patented technology
The one & only accessible screw clip

Barcelona since 1977

Quality · Reliability · Experience

Our floors have been embraced in all kinds of projects in more than **80 countries** worldwide, featuring collaborations with internationally known architects such as **Frank Gehry**, **Jean Nouvel**, **Santiago Calatrava**, **Norman Foster** and **GSAarquitectos**.

R+D+I · Innovation is our passion

Stimulates us to improve our products and find better solutions to be one step ahead.

1995 · Exterpark Classic

We invented and patented the first hidden fastening system clip for decks. This has become today the standard fixing system for most producers worldwide. No more screws on the surface.

2004 · Invisible profile patent

A subtle modification on the standard deck profile with visible open gaps which created 3 main advantages: better aesthetics, safer for high heels and loss of valuables was no longer a concern.

2012 · Speedclip: No screws

Our 3rd patented innovation.
Our first contribution to making installation easier, screw-less, definitely faster and cost-efficient.

2014 · The Magnet: Accessibility milestone

This worldwide granted patent ignited our accessibility journey.

2023 · Magnet S patent

Our screwless & accessible magnet system is now easier and 3 times faster.

2025: A NEW DECKING STANDARD THE SHARK CLIP

SHARK

1

INVISIBLE PROFILE

Our patented invisible profile is an absolute winner, and it just looks so much better.

A SUBTLE DIFFERENCE WHICH MAKES A BIG DIFFERENCE

2

100% ACCESSIBLE

The most flexible system granting anyone access, anytime, anywhere in 2 seconds.

ONE & ONLY ACCESSIBLE CLIP FOR SCREW-IN AND SCREWLESS DECKING

3

NO SCREWS

A smart decking system widely recognized by the industry as one of the best systems ever developed. Our mechanical locking is strong yet flexible. It will always allow us to go back.

MAINTENANCE-FRIENDLY AND VERY GENTLE FOR THE USER

4

3x FASTER

Installation has never been so fast and easy.

FASTER TO INSTALL. FASTER TO REMOVE

5

ALUMINUM JOISTS

Choosing the right substructure is choosing the right foundation and our aluminium is:

STRAIGHT AS AN ARROW. STABLE AS A ROCK

2

1.1 HYGIENIC

Food & leaves can't fall down

Who prefers open gaps between boards...

1.2 BETTER LOOK

No gaps & no understructure to be seen

when it can look like this? Flawless!

1.3. NO LO\$\$ OF VALUABLES

Don't lose your mobile.
Don't lose your coins.
Don't lose your ring.

Dress to impress!

1.4. SAFER

No more stuck heels.

Patented invisible profile system
with 4 mm spacing for optimal drainage and ventilation.

SHARK

100%
accessible

Full access to decks, walls, and ceilings.

- **FLEXIBILITY** as your best ally
- **MAINTENANCE** friendly
- **EASY** substitution of boards

2

L-Shape Ipe

Committed to the environment and the responsible management of the forests of our planet.

We strive to bring the best of nature to your living environment.

*Only products identified as such are FSC® certified

thinking green

Exterpark Tech, eco-friendly composite

Made with recycled materials, powered by solar energy and recyclable.

Increased lifespan and reusability

Exterpark magnet screw-less flexible system features relocation and reusable characteristics that provide credits for green LEED building certification.

FSC®: Forest Stewardship Council®

We prioritize sustainability by utilizing certified wood on our Exterpark Tech composite and Exterpark natural wood products. FSC® sets standards for responsible forest management.

A green and sustainable option

Wood, a durable and eco-friendly material, boasts a significantly smaller carbon footprint than fossil-based building materials. Its integration into living spaces not only supports environmental preservation but also enhances well-being. The chemical composition of wood, resembling that of the human body, fosters a harmonious balance between body and mind, contributing to improved health and overall quality of life.

La marca de la gestión forestal responsable

our factory

We take care of the forest management, the selective cutting of wood, the drying in our ovens and the manufacturing and finishing of our products.

We control the entire value chain.
